1 P8 Globalization P8

Definition: In every broad term, globalization is the worldwide integration of economic, technological, political, cultural, and social aspects between countries.

从广义上讲，全球化是世界范围内国家之间经济、技术、政治、文化和社会方面的一体化。

Globalization has additionally resulted in increasing intercultural relationship. Mounting immigration, urbanization, international employment, study abroad, and ease of foreign travel are facilitating contact between people with different racial, ethnic, religious, and cultural backgrounds.

全球化增加了不同文化之间的关系。日益增多的移民、城市化、国际就业、出国留学和出国旅游便利，促进了不同种族、民族、宗教和文化背景的人们之间的联系。

Challenges for the Globalized Society		
Social challenges	World population growth Mass migration Urbanization Intercultural integration Aging populations / declining birthrates	世界人口增长 大规模的移民 城市化 跨文化整合 人口老龄化/出生率下降
Ecological concerns	Competition for natural resources Raw materials Water shortages Food scarcities Pelagic resources Environmental changes / degradation	自然资源的竞争 原材料 水资源短缺 食物短缺 远洋资源 环境变化/退化
Humanitarian and legal cooperation	Disease control Disaster relief International mishap Transnational crime Cyber crime Intellectual property	疾病控制 救灾 国际事故 跨国犯罪 网络犯罪 知识产权
Political questions	International legal system Scientific advancement ethics Human rights issue	国际法律体系 科技进步道德 人权问题
Security	Weapons of mass destruction Terrorism and piracy Peacekeeping missions Emerging threats Sectarian and ethnic tensions Renascent nationalism Contested territorial claim	大规模杀伤性武器 恐怖主义和海盗 维和任务 新出现的威胁 教派和种族紧张局势 复兴的民族主义 有争议的领土要求

Low-cost air travel permits people to experience other cultures with great ease.

廉价的航空旅行可以让人们轻松地体验其他文化。

Globalization has caused population shifts as people immigrate seeking new opportunities and escaping oppressive conditions.

全球化导致了人口的转移，因为人们为了寻找新的机会和逃离压迫的条件而移民。

优点：

1 Those who favor globalization view it as a means by which countries may develop economically and increase their standard of living: International trade through globalization can have many benefits. Trade helps increase economic wealth and establishes good political relationships with trading partners.

那些赞成全球化的人认为，全球化是各国经济发展和提高生活水平的一种手段：通过全球化进行的国际贸易可以带来许多好处。贸易有助于增加经济财富，并与贸易伙伴建立良好的政治关系。

2 Globalization also promotes free trade and competition between corporations. This gives consumers throughout the world more options and cheaper products from which to choose.

全球化还促进了公司之间的自由贸易和竞争，这给全世界的消费者提供了更多选择和更便宜的产品可供选择。

缺点：

1 Developed countries exploited developing nations through free-trade agreements.

发达国家通过自由贸易协定剥削了发展中国家。

2 It may overtake a country's traditional identity.它可能会取代一个国家的传统身份。

3 In developing countries, workers are exploited and the environment has been damaged.

在发展中国家，工人受到剥削，环境遭到破坏。

4 It may increase the gap between the poor and the rich, as well as between developed and developing countries.

这可能会增加贫富之间以及发达国家和发展中国家之间的差距。

中间地带：

The vast majority of globalization's critics and proponents stand somewhere within this middle ground. Many of those in the middle support an "alternative globalization." They accept globalization in general. However, they also want the international community to stop giving priority to the global market and trade. For many of the negative aspects of globalization to be addressed, the focus must shift to issues such as human and labor rights, the environment, and social welfare.

全球化的绝大多数批评家和支持者都站在这个中间立场。中间的许多人都支持“替代性全球化”。他们普遍接受全球化，但他们也希望国际社会停止对全球市场和贸易给予优先考虑。要解决全球化的许多负面问题，必须将重点放在转向人权和劳工权利，环境和社会福利等问题。
