

目录

题目类型	3
跨文化交际复习重点:	3
第一单元:	3
Generalization (归纳, 一般化) P21	3
第二单元:	4
Communication (沟通、交流), p34	4
Symbol (符号), p36-37	4
Culture (文化), p43-45	4
World-view (世界观), p63	5
Intercultural communication competence (跨文化交际能力), p67	5
第三单元:	5
Deep culture (深层文化), p78	5
Social organization (社会性组织), p64-65	5
Family (家庭), p84-85(☆)	6
第四单元:	6
Perception (感知), p120-121, ☆	6
Belief (信仰), p122-123	7
Values (价值), p122-123	8
Behaviors (行为), p123	8
Cultural patterns (文化模式) ☆, p124	9
High-context & low-context culture(霍尔的高语境和低语境导向), p140-142 ☆	9
Collectivistic & Individualistic cultures, p143-145	12
Uncertainty avoidance (不确定规避), p145	13
Power distance (Egalitarian & Hierarchical), 权利差距 (男性&女性), p148	14
Face+ Facework, 面子和面子工程, p156-158	16
第五单元:	18
(Cultural) Identity (文化身份、文化认同), p168	18

第六单元:	18
Language (语言), P197	18
第七单元:	18
Nonverbal communication (非言语交际), p229	18
Proxemics (人际距离学), p255	19
P-time & M-time culture	19
第八单元:	21
culture shock (文化冲击), p279,	21
Acculturation (文化适应), p279	21
Ethnocentrism (民族中心主义), p281	21
Stereotyping (刻板印象), p285	21
Prejudice (偏见) p287	21
racism (种族主义), p292	21
Power (权利), p294	22
ethics in communication (沟通的伦理层面) p296,	22
cultural relativism (文化相对主义) p297,	22
Universalism (普遍主义) p298	22

题目类型

概念题 填空题 15 题 30 分、单选题 15 题 30 分、主观题案例分析 40 分

跨文化交际复习重点：

- (1) 各重要概念的定义、意义、特点、组成部分、分类、功能等；
- (2) 认知、价值观、信仰、行为、身份、家庭、语言（言语和非言语交际）、文化、交际、跨文化交际等之间的相互关系；
- (3) 文化模式
- (4) 跨文化交际能力

第一单元：

Generalization (归纳，一般化) P21

Generalizations are based on limited data and are then applied to a larger population.

一般化（归纳、概括）是基于有限的数据，然后应用于更大的群体。

In intercultural communication, this **means** ascribing characteristics to a larger group of people based on attributes displayed by a smaller group.

在跨文化交际中，这**意味着**根据一小群人表现出来的特征，将特征归给更大的一群人。

Stereotypes differ from generalizations in that they may not be based solely on conjecture and usually appeal to the audience's positive or negative emotions.

刻板印象不同于概括（一般化、归纳），因为它们可能不完全基于猜测，通常会吸引观众的积极或消极情绪。

Although generalizing can be a problem when studying intercultural communication, **certain precautions** can be taken (as we have endeavored to do in this book) to minimize the misleading effects of generalizing.

虽然在研究跨文化交际时，泛化可能是一个问题，但可以采取**某些预防措施**（正如我们在本书中所做的那样）来尽量减少泛化的误导效果。

First, cultural generalizations must be viewed as approximations, not as absolute representations. 首先，文化概括必须被视为近似，而不是绝对代表。

Second, when you do make generalizations, they should deal with the primary values and behaviors of a particular culture.

第二，当你进行概括时，它们应该涉及特定文化的主要价值观和行为。

Third, when employing generalizations, try to use those that can be supported by a variety of sources.

第三，在使用归纳法时，尽量使用各种来源支持的归纳法。

Finally, conclusions and statements about cultures should be qualified so that they appear not as absolute but only as cautious generalizations.

最后，关于文化的结论和陈述应该加以限定，以便它们看起来不是绝对的，而只是谨慎的概括。

第二单元：

Communication（沟通、交流），p34

定义：

To understand intercultural interaction, you must first recognize the role of communication in that process. 要理解跨文化交流，你必须首先认识到交流在这个过程中作用

Communication – our ability to share our ideas and feelings – is the basis of all human contact.

沟通——我们分享想法和感受的能力——是所有人类接触的基础。

For us, human communication is a **dynamic process** in which people attempt to share their thoughts with other people through the use of symbols in particular settings.

对我们来说，人类交流是一个**动态的过程**，在这个过程中，人们试图通过在特定环境中使用符号与他人分享他们的想法。

Symbol（符号），p36-37

In human communication, a **symbol** is an expression that stands for or represents something else.

在人类交流中，符号是一种表示或代表其他事物的表达。

Although those symbols may be **spontaneous and nonintentional** (someone sneezes, and you infer they have a cold) or **intentional** (someone tells you they have a cold), both involve your attaching meaning to a symbolic event generated by another person.

尽管这些符号可能是**自发的、非触感的**（有人打喷嚏，你推断他们感冒了）或**有意的**（有人告诉他们感冒了），但它们都涉及到你对另一个人产生的符号事件的附加意义。

In many ways, this act of attaching meaning to symbols are at the core of human communication.在许多方面，这种赋予符号意义的行为是人类交流的核心。

Culture（文化），p43-45

Culture is **difficult to define**. 文化**很难定义**。

As Harrison and Huntington note, “The term ‘culture,’ of course, has had multiple meanings in different disciplines and different contexts.

正如哈里森和亨廷顿所指出的，“当然，‘文化’一词在不同的学科和不同的语境中有多种含义。

We are concerned with more enduring aspects of culture and with a definition that reveals how culture and communication are linked.

我们关注的是文化中更持久的方面，以及一个揭示文化与交流如何联系的定义。

One definition that meets our needs is advanced by Triandis:

Triandis 提出了一个符合我们需求的定义：

Culture is a set of human-made objective and subjective elements that in the past have increased the probability of survival and resulted in satisfaction for the participants in an ecological niche, and thus became shared among those who could communicate with each other because they had a common language and they lived in the same time and place.

文化是一组人为的客观和主观因素，在过去，这些因素增加了生存的可能性，并使生态位中的参与者感到满意，因此成为那些能够相互交流的人的共同点，因为他们有共同的语言，生活在同一时间和地点。

World-view（世界观）,p63

Worldview

● provides some of the unexamined underpinnings for perception and the nature of reality as experienced by individuals who share a common culture.

为具有共同文化的个体所经历的感知和现实的本质提供了一些未经检验的基础。

● functions to make sense of life, which might otherwise be perceived as disordered, accidental and meaningless.

提供使生活变得有意义的功能，否则可能会被视为无序、偶然和无意义。

Intercultural communication competence（跨文化交际能力）, p67

Intercultural communication competence is “behavior that is appropriate and effective in a given context”.

跨文化交际能力是“在特定语境中适当有效的行为”。

Intercultural communication competence is “The overall internal capability of an individual to manage key challenging features of Intercultural communication : namely, cultural differences and unfamiliarity , inter-group posture, and the accompanying experience of stress” .

跨文化交际能力是“一个人管理跨文化交际关键挑战特征的整体内部能力:即文化差异和不熟悉、跨群体姿态以及随之而来的压力体验”。

The two definitions, one general and one specific, suggest that being an interculturally competent communicator means analyzing the situation and selecting the correct mode of behavior.

这两个定义，一个是一般的，一个是具体的，表明作为一个跨文化的沟通者意味着分析情况，选择正确的行为模式。

第三单元：

Deep culture（深层文化）, p78

It is this deep culture, the conscious and unconscious assumptions about how the world works, that unifies a culture, makes each culture unique, and explains the “how” and “why” of a culture's collective action——action that is often difficult for “outsiders” to understand.

正是这种深厚的文化，关于世界如何运转的有意识和无意识的假设，统一了一种文化，使每种文化独一无二，并解释了一种文化的集体行动的“方式”和“原因”——这些行动往往是“局外人”难以理解的。

Social organization（社会性组织）, p64-65

Social organizations 社会性组织

- social systems; social structures 社会制度；社会结构
- various social units within the culture 文化中的各种社会单位
- family, government, schools, tribes, clans 家庭、政府、学校、部落、宗族
- basic premise: interdependence 基本前提：相互依存
- rule-governed patterned interactions 规则控制的模式化交互
- group cohesion 群体凝聚力

Family (家庭), p84-85(☆)

A single definition of family is difficult to construct, since what constitutes a family, especially in the United States, can take a variety of configurations.

很难对家庭作出单一的定义，因为组成家庭的东西，特别是在美国，可以有多种组合。

A definition advanced by Lamanna and Riedmann is acceptable:

Lamanna 和 Riedmann 提出的定义是可以接受的:

A family is any sexually expressive or parent-child or other kin relationship in which people—usually related by ancestry, marriage, or adoption——

- form an economic unit and care for any young;
- consider their identity to be significantly attached to the group;
- commit to maintaining that group over time.

一个家庭是任何性表达或父母-孩子或其他亲属关系，在这种关系中，人们通常是通过祖先、婚姻或收养联系起来的

- 形成一个经济单位，照顾任何年轻人;
- 认为他们的身份与群体有很大的关联;
- 承诺长期维持这个团队。

一旦一个人成为其中一个家庭的成员，他或她也会发现自己是核心家庭或大家庭的成员。

①A nuclear family: a parent or parents and a child or children as one unit

核心家庭:一个或多个父母和一个或多个孩子作为一个整体

②An extended family: typically includes grandparents and relatives

大家庭:通常包括祖父母和亲戚

第四单元:

Perception (感知), p120-121, ☆

We live in an information-saturated environment. Daily, our senses are barraged with far more physical and psychological stimuli than we can process and interpret. To survive, we engage in a **three-step process selection, organization, and interpretation** to manage the stimuli considered important:

我们生活在一个信息饱和的环境中。每天，我们的感官受到的生理和心理刺激远远超过我们处理和解释的能力。为了生存，我们要经历一个**三步过程:选择、组织和解释**，以管理被认为重要的刺激

①**selection**: we selectively decide which of the stimuli to attend to and which to ignore.

选择:我们选择性地决定关注哪些刺激，忽略哪些刺激。

② **organization**: the selected information must be organized, or categorized, after which a meaning is assigned.

组织:选定的信息必须进行组织或分类，然后赋予意义。

③**interpretation**: produces perception of a situation, emotion, or even another person.

解释:产生对一种情况，情感，甚至另一个人的感知。

In its simplest form, perception is how we make sense of the world, how we construct reality.

简单来说，感知就是我们如何理解世界，如何构建现实。

Culture influences one's subjective reality and that there are direct links among culture, perception, and behavior.

文化影响一个人的主观现实，文化、感知和行为之间有直接的联系。

The five characteristics of perception:感知的五个特点:

**** Perception is selective----** Because there are so many stimuli simultaneously competing for the attention of senses, you focus only on selected information and filter out the rest.

感知是选择性的----因为有这么多个刺激同时竞争感官的注意力，你只关注选定的信息，过滤掉其余的。

****Perception is learned-----** Life's experiences teach you to see the world in a particular way.

感知是学习得来的-----生活的经验教会你以一种特殊的方式看世界。

**** Perception is culturally determined-----** Culture teaches you the meaning behind most of your experiences.

感知是由文化决定的-----文化教会你大多数经历背后的意义。

****Perception is consistent -----**Once you perceive something in a particular manner, that interpretation is usually resistant to change.

感知是一致的-----一旦你以一种特定的方式感知到某件事，这种解释通常是抵制改变的。

****Perception is inaccurate -----**You view the world through a subjective lens influenced by culture, values, and personal experiences. 感知是不准确的-----你通过受文化、价值观和个人经历影响的主观视角看世界。 This tends to make you see what you expect or want to see.

这会让你看到你期望或想要看到的东西。

Belief（信仰）, p122-123

A belief is a concept or idea that an individual or group holds to be true. Beliefs represent one's subjective conviction in the truth of something with or without proof. The degree to which we believe that an object, event, phenomenon, person, or group of people possesses certain characteristics reflects the level of our subjective probability and, consequently, the depth or intensity of our belief.

信仰是一个人或群体认为是正确的概念或想法。信念代表一个人对有证据或没有证据的事物的真实性的主观信念。我们相信某一物体、事件、现象、个人或群体具有某种特征的程度反映了我们主观可能性的水平，因此也反映了我们信念的深度或强度。

A shared belief or attitude is usually perceived to be more valid than one that is not shared. When a person holds a certain belief or attitude, knowing that other people share this belief or attitude will increase the person's adherence to his belief or attitude.

一个共同的信仰或态度通常被认为比一个没有共同的更有效。当一个人持有某种信念或态度时，如果知道其他人也持有这种信念或态度，就会增加这个人对自己信念或态度的坚持。

What makes belief system **important** is that **it is learned, and subject to cultural interpretation.** Therefore, shared beliefs can come to represent cultural norms, or values, characterizing a large collective of people. But even within a large collective, people may hold beliefs that run counter to the beliefs of others. Thus, beliefs and the cultural values they may produce can both unite and divide.

信仰体系之所以重要，是因为它是**可以习得的，并受文化解读的影响**。因此，共同的信仰可以代表文化规范或价值观，描述一个大集体的特征。但是，即使在一个大的集体中，人们

也可能持有与他人的信念相反的信念。因此，信仰及其产生的文化价值既可以统一，也可以分裂。

In those situations where you find that someone does not share your beliefs and values, you have to be able to **recognize the importance of other people's beliefs and how those beliefs and values shape their world view and even their manner of communicating.**

在那些情况下，当你发现有人不同意你的信仰和价值观，你必须能够**认识到其他人的信仰和价值观的重要性，以及这些信仰和价值观如何塑造他们的世界观，甚至他们的沟通方式。**

Values（价值）,p122-123

Beliefs form the foundation of values. What you consider desirable for yourself and for the society you live in is a product of your values, which can be held both consciously and subconsciously.

信念是价值观的基础。你认为对你自己和你所生活的社会有价值的东西是你的价值观的产物，你可以有意识地 and 潜在地持有这些价值观。

Although each of us has a unique set of values, there are also values that tend to permeate and characterize a culture. These cultural values provide a set of guidelines that assist the culture's members in deciding what is good or bad, desirable or undesirable, right or wrong, and appropriate or inappropriate in almost every context of human activity. Varied cultural values can create intercultural conflict at both a personal and an international level.

虽然我们每个人都有一套独特的价值观，但也有一些价值观倾向于渗透和表征一种文化。这些文化价值观提供了一套指导方针，帮助文化成员决定在人类活动的几乎所有环境中什么是好的或坏的，理想的或不理想的，对的或错的，适当的或不适当的。不同的文化价值观会在个人和国际层面造成跨文化冲突。

One's cultural values like all important aspects of culture are acquired through a variety of sources (family, history, proverbs, media, school, church, state, etc.) and, therefore, tend to be broad-based, enduring, and relatively stable. A culture's value system establishes the expected, normative modes of behavior for members of that culture and institutes the criteria to judge people's conduct. Unfortunately, during intercultural interactions people have a tendency to apply their own criteria to members of other cultures who usually hold different values. This frequently results in misunderstandings, confusion, and even conflict.

一个人的文化价值观就像文化的所有重要方面一样，是通过各种来源(家庭、历史、谚语、媒体、学校、教会、国家等)获得的，因此，往往是广泛的、持久的和相对稳定的。一种文化的价值体系为该文化成员建立了预期的、规范的行为模式，并制定了判断人们行为的标准。不幸的是，在跨文化交往中，人们倾向于将自己的标准应用于持有不同价值观的其他文化成员。这常常导致误解、困惑，甚至冲突。

Behaviors（行为）, p123

Behaviors are the outward manifestations of people's internalized beliefs and values. As with almost all things in life, culture also has a regulatory influence on behaviors. Culture tells people the accepted deportment for different social contexts and what is age appropriate, and specifies gender-specific conduct. For the study of intercultural communication, it is also important to know that beliefs and values exert an influence on people's communicative behaviors.

行为是人们内化的信念和价值观的外在表现。就像生活中几乎所有的事情一样，文化对行为也有调节作用。文化告诉人们在不同的社会环境下可以接受的行为举止，以及什么是适合年龄的，并规定了不同性别的行为。对于跨文化交际的研究来说，了解信念和价值观对人们的交际行为的影响也是很重要的。

Cultural patterns（文化模式）☆, p124

Cultural patterns, sometimes called value orientations, is an umbrella term used to collectively describe those cultural values that characterize the dominant group within a culture. The term refers to culturally based beliefs, values, attitudes, and behaviors shared by members of a particular culture. These patterns encompass the conditions that contribute to a social group's perception of the world and how they live in that world.

文化模式，有时被称为价值取向，是一个总称，用来统称那些在一个文化中代表主导群体的文化价值观。这个术语指的是基于文化的信仰，价值观，态度和行为，由一个特定的文化成员共享。这些模式包含了社会群体感知世界的条件，以及他们如何在那个世界中生活。

The application of cultural patterns in the study of intercultural communication is beneficial because such patterns offer a systematic structure to help identify and examine recurring values.

文化模式在跨文化交际研究中的应用是有益的，因为这种模式提供了一个系统的结构，以帮助识别和检查反复出现的价值。

When using cultural patterns to help gain added insight relative to various ideas and activities exhibited by other cultures, the following **four caveats** should be kept in mind:

当使用文化模式来帮助获得与其他文化所展示的各种想法和活动相关的额外见解时，应记住以下**四个注意事项**：

*** You are more than your culture:** all individuals within a cultural group may not share the dominant values of that culture.

你不只是你的文化：一个文化群体中的所有可能都不认同该文化的主导价值观。

*** Cultural patterns are integrated:** it is important to realize that cultural patterns do not occur or operate in isolation; they are interrelated and integrated.

文化模式是统一的：必须认识到，文化模式不是孤立发生或运作的；它们是相互联系和综合的。

*** Cultural patterns are dynamic:** values can evolve and produce societal change. The interconnected world created by globalization has enabled people in other nations to learn about different values and social structures.

文化模式是动态的：价值观可以演变并产生社会变化。全球化创造的相互联系的世界使其他国家的人们能够了解不同的价值观和社会结构。

*** Cultural patterns can be contradictory:** in many instances, contradictory values within a culture can be found.

文化模式可能是矛盾的：在许多情况下，一种文化中可以发现矛盾的价值观。

High-context & low-context culture(霍尔的高语境和低语境导向), p140-142 ☆

E.T. Hall, an anthropologist, was one of the early pioneers in the study of intercultural communication. He categorizes cultures as **high-context** or **low-context**, depending on how much meaning is derived from the contextual environment rather than the actual words exchanged

during communicative interactions.

人类学家 E.T.霍尔是研究跨文化交际的早期先驱之一。他将文化分为**高语境文化**和**低语境文化**，这取决于有多少意义来自于语境环境，而不是交际互动中实际交换的词语。

The assumption underlying Hall's classifications is that one of the functions of culture is to provide a highly selective screen between man and the outside world. In its many forms, culture therefore designates what we pay attention to and what we ignore.

霍尔分类的基础假设是，文化的功能之一是在人与外部世界之间提供一种高度选择性的屏障。因此，文化以多种形式指明了我们关注什么和忽略什么。

Hall saw context as the information that surrounds an event. His work revealed that cultures were often characterized by high- or low-context communication, which he described in the following
霍尔认为背景是围绕事件的信息。他的研究表明，文化的特点通常是高语境或低语境的交流，他在下面描述了这一点

***A high-context (HC)** communication or message is one in which most of the information is already in the person, while **very little is in the coded, explicitly transmitted part of the message.**

高语境(HC)通信或消息是这样一种通信，其中大部分信息已经存在于个人体内，而编码的、显式传输的信息部分则很少。

***A low-context (LC)** communication is just the opposite; i.e., **the mass of the information is vested in the explicit code.**

低语境(LC)交流正好相反;也就是说，大量的信息归属于显式代码。

Although all cultures possess some characteristics of both high- and low-context variables, most can be ranked along a scale for this particular dimension.

尽管所有的文化都具有高语境变量和低语境变量的一些特征，但大多数文化都可以根据这个特定的维度进行排名。

TABLE 4.3 Cultures Arranged Along the High-Context and Low-Context Dimension

high-context:

In high-context cultures, most of the meaning exchanged during an encounter is often not communicated through words. High-context cultures normally possess a significant degree of similarity among the people. This leads to similar perceptions, experiences, and societal expectations, which produce well-defined social protocols. Because high-context cultures are usually **quite traditional**, they **change little over time** and **produce consistent responses to the social environment**. Since the meaning is not necessarily contained in the words in high-context cultures, **information is provided through inferences, gestures, and even in what is not said**.

在高语境文化中，在一次相遇中交换的大部分意思**往往不是通过语言来传达的**。高语境文化通常在人们之间具有显著程度的相似性。这导致了相似的认知、经历和社会期望，从而产生了定义明确的社会协议。因为高语境文化通常**相当传统**，它们**随时间变化很小**，**对社会环境产生一致的反应**。因为在高语境文化中，意思不一定包含在词语中，**信息是通过推理、手势，甚至是没有说出来的话来提供的**。

People of high-context cultures tend to be **attuned to their surroundings** and can easily express and interpret emotions **nonverbally**. Meaning in high-context cultures is also **conveyed through status** (age, sex, education, family background, title, and affiliations) **and through an individual's informal friends and associates**. Because of the subtle messages used by high-context cultures, members of these groups **rely more on how something is said rather than what is said and are acutely aware of nonverbal cues**.

高语境文化的人往往**与周围环境协调一致**，可以很容易地用**非语言**表达和解释情绪。在高语境文化中，意义也通过**地位**(年龄、性别、教育程度、家庭背景、头衔和从属关系)以及**个人非正式的朋友和同事来传达**。由于高语境文化所使用的微妙信息，这些群体的成员**更多地依赖于某事是如何说的，而不是说了什么，并且对非语言线索有敏锐的意识**。

Low-Context

Low-context cultures typically have a high degree of diversity within the population and tend to compartmentalize interpersonal contacts.

In low-context cultures the verbal message contains most of the information, and very little is conveyed through the context or the participant's nonverbal displays.

低语境文化通常在人群中具有高度的多样性，并倾向于将人际交往划分开来。**在低语境文化中，语言信息包含了大部分信息，很少通过语境或参与者的非语言表现来传达**。

This characteristic manifests itself in a host of ways. For example, the **Asian** mode of communication (high-context) is often vague, indirect, and implicit, whereas **Western** communication (low-context) tends to be direct and unambiguous.

这一特点表现在许多方面。例如，**亚洲**的交流模式(高语境)往往是模糊的，间接的，含蓄的，而**西方**的交流模式(低语境)往往是直接和明确的。

Collectivistic & Individualistic cultures, p143-145

The individualism/collectivism continuum can be **defined** with the following:

* Collectivistic cultures emphasize community, collaboration, shared interests, harmony, tradition, the public good, and maintaining face.

* Individualistic cultures emphasize personal rights and responsibilities, privacy, voicing one's own opinion, freedom, innovation, and self-expression.

个人主义/集体主义连续体可以用以下方式定义:

*集体主义文化强调社区、协作、共同利益、和谐、传统、公共利益和维护面子。

*个人主义文化强调个人权利和责任、隐私、表达自己的观点、自由、创新和自我表达。

individualism

The components of individualism are identified:

* First, the individual is the single most important unit in any social setting.

* Second, independence rather than interdependence is stressed.

* Third, individual achievement is rewarded.

* Lastly, the uniqueness of each individual is of paramount value.

个人主义的组成部分如下:

首先，在任何社会环境中，个人都是最重要的单位。

第二，强调独立而不是相互依赖。

第三，奖励个人成就。

最后，每个人的独特性是至关重要的。

A person's rights and privacy prevail over group considerations in an individualistic culture. Individualists are likely to belong to many groups but **retain only weak ties**, changing membership when desired.

在个人主义文化中，个人的权利和隐私高于群体考虑。个人主义者可能属于许多群体，但**只保留微弱的联系**，在需要时改变成员。

TABLE 4.4 Individualism/ Collectivism Values for Countries and Regions					
RANK	COUNTRY/REGION	RANK	COUNTRY/REGION	RANK	COUNTRY/REGION
1	<u>United States</u>	19	Israel	37	Hong Kong(China)
2	Australia	20	Spain	38	Chile
3	Great Britain	21	India	39-41	Singapore
4/5	Canada	22/23	Japan	39-41	Thailand
4/5	Netherlands	22/23	Argentina	39-41	West Africa
6	New Zealand	24	Iran	42	El Salvador
7	Italy	25	Jamaica	43	South Korea
8	Belgium	26/27	Brazil	44	<u>Taiwan(China)</u>
9	Denmark	26/27	Arab countries	45	Peru
10/11	Sweden	28	Turkey	46	Costa Rica
10/11	France	29	Uruguay	47/48	Pakistan
12	Ireland	30	Greece	47/48	Indonesia
13	Norway	31	Philippines	49	Colombia
14	Switzerland	32	Mexico	50	Venezuela
15	Germany	33-35	Yugoslavia	51	Panama
16	South Africa	33-35	Portugal	52	Ecuador
17	Finland	33-35	East Africa	53	Guatemala
18	Austria	36	Malaysia		

Collectivism

The majority of the world's population lives in collectivistic societies where group interests take precedence over those of the individual. In collective cultures, interpersonal relationships form a rigid social framework that distinguishes between in-groups and out-

groups. People rely on their in-groups (e.g., family, tribe, clan, organization) for support, and in exchange, they believe they owe loyalty to that group.

世界上大多数人口生活在集体主义社会中，在这种社会中，群体利益优先于个人利益。在集体文化中，人际关系形成了一个严格的社会框架，区分了内群体和外群体。人们依赖于他们的群体(例如，家庭、部落、氏族、组织)来获得支持，作为交换，他们认为应该对这个群体忠诚。

People in collective societies are often born into extended families, clans, or tribes that support and protect them in exchange for their allegiance. Collective cultures emphasize group membership, and the individual is emotionally, and in some cases, physically dependent on organizations and institutions. Organizations and the groups to which individuals belong also affect private life, and people generally acquiesce to group decisions, even if they are counter to personal desires.

在集体社会中，人们通常出生在支持和保护他们的大家庭、氏族或部落中，以换取他们的忠诚。集体文化强调群体成员关系，个人在情感上，在某些情况下，身体上依赖于组织和机构。个人所属的组织和群体也会影响私人生活，人们通常会默认群体的决定，即使这些决定与个人欲望相悖。

Collectivism is also **contextual**. In a learning environment, a collective classroom will stress harmony and cooperation, often through group activities, rather than individual competition. (eg. the healthcare setting)

集体主义也是有背景的。在学习环境中，集体课堂强调和谐与合作，通常通过集体活动，而不是个人竞争。(如。医疗保健设置)

Uncertainty avoidance (不确定规避), p145

The core of uncertainty avoidance is that the future is unknown. As used in Hofstede's research, **uncertainty avoidance can be defined as the extent to which the members of a culture feel threatened by ambiguous or unknown situations**. Cultures vary in their ability to tolerate ambiguity and unpredictability.

不确定性规避的核心是未来是未知的。正如 Hofstede 的研究中所使用的，**不确定性规避可以定义为一种文化的成员在模糊或未知的情况下感到威胁的程度**。不同文化对歧义和不可预测性的容忍能力各不相同。

High uncertainty avoidance

High uncertainty avoidance cultures **attempt to reduce unpredictability and ambiguity** through intolerance of deviant ideas and behaviors, emphasizing consensus, resisting change, and adhering to traditional social protocols. **Relatively high levels of anxiety and stress often characterize these cultures.**

高度不确定性规避文化试图通过不容忍偏差的想法和行为来减少不可预测性和模糊性，强调共识，抵制变化，并坚持传统的社会协议。相对高度的焦虑和压力通常是这些文化的特征。

RANK	COUNTRY/REGION	RANK	COUNTRY/REGION	RANK	COUNTRY/REGION
1	Greece	19	Israel	37	Australia
2	Portugal	20	Colombia	38	Norway

10~15	Chile	31/32	Finland	49/50	Sweden
10~15	Costa Rica	33	Switzerland	51	Denmark
16/17	Turkey	34	West Africa	52	Jamaica
16/17	South Korea	35	Netherlands	53	Singapore
18	Mexico	36	East Africa		

Low uncertainty avoidance

Low uncertainty avoidance cultures more easily accept the uncertainty inherent in life, tend to be tolerant of the unusual, and are

not as threatened by different ideas and people. They prize initiative, dislike the structure associated with hierarchy, are willing to take risks, are flexible, think that there should be as few rules as possible, and depend not so much on experts as on themselves. As a whole, members of low uncertainty avoidance cultures are much less constrained by social protocol.

低不确定性规避文化更容易接受生活中固有的不确定性，更容易容忍不寻常的事情，不会受到不同想法和人的威胁。他们重视主动性，不喜欢等级制度，愿意承担风险，思维灵活，认为规则越少越好，对专家的依赖越多，对自己的依赖越多。总体而言，低不确定性规避文化的成员受社交礼仪的约束要少得多。

As with other value dimensions, there are differences in the degree to which uncertainty avoidance influences communication and activities in varied contexts.

与其他价值维度一样，不确定性规避对不同情况下的交流和活动的影响程度也各不相同。

Power distance (Egailitarian & Hierarchical), 权利差距（男性&女性）,p148

High Power Distance

Individuals from high power distance cultures accept power as part of society. As such, superiors consider their subordinates to be different from themselves and vice versa. People in high power distance countries believe that power and authority are facts of life. **Both consciously and unconsciously, these cultures teach their members that people are not equal in this world and that everybody has a rightful place,** which is clearly marked by countless societal hierarchies, often based on factors such as family name, education, age, profession, or organizational position.

来自高权力距离文化的个体接受权力为社会的一部分。因此，上级认为他们的下属与自己不同，反之亦然。在高权力距离国家，人们认为权力和权威是生活的事实。**无论是有意还是无意，这些文化都告诉其成员，在这个世界上，人们是不平等的，每个人都有自己应有的地位，**这种地位明显地被无数的社会等级所标记，通常基于诸如姓氏、教育程度、年龄、职业或组织职位等因素。

Organizations in high power distance cultures commonly have a strong centralization of power, a recognition and use of rank and status, and adherence to established lines of authority.

在高权力距离文化中的组织通常有很强的权力集中，对等级和地位的认可和使用，并坚持既定的权威路线。

TABLE 4.6 Power Distance Values for Countries and Regions					
RANK	COUNTRY/REGION	RANK	COUNTRY/REGION	RANK	COUNTRY/REGION
1	Malaysia	18/19	Turkey	37	Jamaica
2/3	Guatemala	20	Belgium	38	United States
2/3	Panama	21~23	East Africa	39	Canada
4	Philippines	21~23	Peru	40	Netherlands
5/6	Mexico	21~23	Thailand	41	Australia
5/6	Venezuela	24/25	Chile	42~44	Costa Rica
7	Arab countries	24/25	Portugal	42~44	Germany
8/9	Ecuador	26	Uruguay	42~44	Great Britain
8/9	Indonesia	27/28	Greece	45	Switzerland
10/11	India	27/28	South Korea	46	Finland
10/11	West Africa	29/30	Iran	47/48	Norway
12	Yugoslavia	29/30	Taiwan(China)	47/48	Sweden
13	Singapore	31	Spain	49	Ireland
14	Brazil	32	Pakistan	50	New Zealand
15/16	France	33	Japan	51	Denmark
15/16	Hong Kong(China)	34	Italy	52	Israel
17	Colombia	35/36	Argentina	53	Austria
18/19	El Salvador	35/36	South Africa		

Low power distance

Low power distance countries hold that inequality in society should be minimized. Cultures considered to be low power distance are characterized by numerous laws, regulations, and rules that tend to minimize power differentials between people

低权力距离国家认为社会不平等应该最小化。被认为是低权力距离的文化，其特征是有大量的法律、法规和规则，它们往往会使人與人之间的权力差异最小化

Subordinates and superiors consider and **treat each other as equals**, and the use of titles is deemphasized. People in power, be they supervisors, managers, or government officials, often interact with their constituents and try to look less powerful than they really are.

下级和上级**平等地考虑和对待彼此**，并且不强调头衔的使用。当权者，无论是监督者、管理者还是政府官员，经常与他们的选民互动，试图让自己看起来比实际更有权力。

In high power distance societies, the emphasis is on **the personal wisdom of the instructor**, whereas in low power distance societies, the focus is on **discerning the impersonal truth**, which can be obtained by any competent person.

在高权力距离的社会中，重点是**讲师的个人智慧**，而在低权力距离的社会中，重点是**识别非个人的真理**，这是任何有能力的人都可以获得的。

(Egalitarian & Hierarchical), (男性&女性) p148

Masculinity is the extent to which the dominant values in a society are male oriented. In a masculine-oriented culture, **emotional gender roles** are clearly distinct: **men** are supposed to be assertive, tough, and focused on material success, whereas **women** are supposed to be more modest, tender, and concerned with the quality of life. Gender roles are highly defined and promote achievement in the workplace. Assertiveness and the acquisition of money and things (materialism) are emphasized and often take precedence over interpersonal relationships.

男子气概是指社会中占主导地位的价值观念以男性为导向的程度。在一个以男性为导向的文化中，**情感上的性别角色**是明显不同的：**男性**被认为是自信的、强硬的、注重物质上的成功，而**女性**则被认为是更谦虚、温柔、关心生活质量的。性别角色被高度定义，并促进工作场所的成就。强调自信和金钱和物质(物质主义)的获得，通常优先于人际关系。

RANK	COUNTRY/REGION	RANK	COUNTRY/REGION	RANK	COUNTRY/REGION
1	Japan	18/19	Hong Kong (China)	37/38	Spain
2/3	Austria	20/21	Argentina	37/38	Peru
2/3	Venezuela	20/21	India	39	East Africa
4/5	Italy	22	Belgium	40	El Salvador
4/5	Switzerland	23	Arab countries	41	South Korea
6	Mexico	24	Canada	42	Uruguay
7/8	Ireland	25/26	Malaysia	43	Guatemala
7/8	Jamaica	25/26	Pakistan	44	Thailand
9/10	Great Britain	27	Brazil	45	Portugal
9/10	Germany	28	Singapore	46	Chile
11/12	Philippines	29	Israel	47	Finland
11/12	Colombia	30/31	Indonesia	48/49	Yugoslavia
13/14	South Africa	30/31	West Africa	48/49	Costa Rica
13/14	Ecuador	32/33	Turkey	50	Denmark
15	United States	32/33	Taiwan (China)	51	Netherlands
16	Australia	34	Panama	52	Norway
17	New Zealand	35/36	Iran	53	Sweden
18/19	Greece	35/36	France		

Cultures that value femininity as a trait **stress nurturing behaviors**. A society is called feminine **when emotional gender roles overlap**: Both men and women are supposed to be modest, tender, and concerned with the quality of life. **A feminine worldview maintains** that men need not be assertive and that they can assume nurturing roles. **It also promotes sexual equality** and holds that people and the environment are important. Interdependence and androgynous behavior are the ideals, and people sympathize with the less fortunate.

重视女性特质的文化**强调养育行为**。当**情感性别角色重叠**时，社会被称为女性化：男人和女人都被认为是谦逊、温柔、关心生活质量的。**一种女性世界观认为**，男性不需要自信，他们可以承担养育角色。它**还提倡男女平等**，认为人和环境都很重要。相互依赖和雌雄同体的行为是理想，人们同情那些不幸的人。

The impact of **masculinity/femininity** on a culture can also be observed in the gender gap survey. To determine the gender gap in countries, the World Economic Forum conducts a yearly survey to measure these four categories:

- (1) economic participation and opportunity,
- (2) educational attainment,
- (3) health and survival, and

(4) political empowerment .

The rankings in the political empowerment category of the 2013 report generally parallel Hofstede's findings.

男性气质/女性气质对文化的影响也可以在性别差距调查中观察到。为了确定各国的性别差距，世界经济论坛每年进行一次调查，以衡量这四个类别：

- (1)经济参与和机会，
- (2)教育程度，
- (3)健康和生存，
- (4)政治赋权。

在 2013 年的报告中，政治权力类别的排名与霍夫斯泰德的调查结果大致相同。

Face+ Facework, 面子和面子工程, p156-158

The term face is commonly used as a metaphor to designate the self-image a person projects to other people. In other words, your face is your public identity, how you are perceived by others. And because face is how others see you, it is acquired, maintained, and lost through social interactions, primarily communication.

This process is referred to as facework, which is defined as a set of coordinated practices in which communicators build, maintain, protect, or threaten personal dignity, honor, and respect. Facework consists of those actions you engage in to acquire or maintain face for yourself or give face to someone else.

“脸”这个词通常用来比喻一个人向他人展示的自我形象。换句话说，你的脸就是你的公众身份，也就是别人对你的看法。因为脸是别人看待你的方式，它是在社交互动中获得、保持和失去的，主要是交流。

这个过程被称为面子工作(facework)，它被定义为一组协调的实践，在这些实践中，沟通者建立、维持、保护或威胁个人的尊严、荣誉和尊重。“面子工作”包括你为自己或给别人面子而采取的行动。

People from all cultures strive to maintain and negotiate face in all communication situations. Face and facework, however, are influenced by cultural values and vary across cultures.

来自不同文化背景的人在各种交流场合都力求保持和谈判的脸面。然而，面子和面子工作受到文化价值观的影响，并因文化而异。

In individualistic cultures, a person's face is usually derived from his or her own self-effort and is normally independent of others. Accordingly, people from individualistic societies are usually more concerned with maintaining their own face.

在个人主义文化中，一个人的脸通常来自于他或她自己的努力，通常独立于他人。因此，来自个人主义社会的人通常更关心维护自己的面子。

In collectivistic cultures, however, there is much greater concern for others' face. This is because group membership is normally the primary source of identity and status. Considerable value is placed on establishing and sustaining stable, harmonious relationships with in-group members.

然而，在集体主义文化中，人们更关心他人的面子。这是因为群体成员身份通常是身份和地位的主要来源。与内部成员建立和维持稳定和谐的关系是非常重要的。

Varying attitudes as to what represents face, how facework is conducted, and the objective of facework have a very noticeable impact on how cultures view and approach conflict. According to

Ting-Toomey's Face Negotiation theory, during a conflict situation, **three different face concerns** can come into play.

不同的态度代表什么，面子工作是如何进行的，以及面子工作的目标对文化如何看待和处理冲突有非常明显的影响。根据 **Ting-Toomey 的 Face Negotiation 理论**，在冲突情境中，**三种不同的 Face 关注点**可以发挥作用。

self-face, where the individual is concerned about his/her own face;

other-face, which focuses on the other person's face;

mutual-face, which encompasses both parties in the conflict.

- “自我面子”，即个人关心自己的面子
- “另一张脸”，关注对方的脸；
- “相互面对”，包括冲突双方。

These three face concerns vary in importance depending on one's cultural orientation.

这三个面子问题的重要性取决于一个人的文化取向。

The different values placed on face, what constitutes face, and how it is managed **have a very noticeable influence on facework**. When confronted with the potential for conflict, **collectivists** will be more inclined toward avoidance and obligating measures. This is a result of concern for both mutual face and others' face and how one's actions may affect others. **Individualists**, however, are concerned primarily with self-face and tend to favor confrontational and solution-oriented approaches to resolve conflicts.

对面子的**不同评价**，什么是面子，以及如何管理，**对面子有非常明显的影响**。当面对潜在的冲突时，**集体主义者**会更倾向于回避和强制措施。这是出于对彼此的面子和他人的面子的考虑，以及自己的行为对他人的影响。然而，**个人主义者**主要关注的是自我形象，倾向于采用对抗性和以解决为导向的方法来解决冲突。

These contrasting attitudes toward conflict give rise to quite **different culturally based communication styles**. During intercultural communication events, the divergent styles can result in confusion, misinterpretation, or even animosity between the participants.

这些对冲突的截然不同的态度导致了**完全不同的基于文化的沟通方式**。在跨文化交际活动中，不同的风格会导致交际参与者之间的混淆、误解甚至仇恨。

Adherence to an **indirect communication style** to sustain amicable relations, as used in high-context cultures, can actually produce the opposite effect among individualistic participants, who may well view the indirectness as duplicity.

在高语境文化中，为了维持友好关系而坚持一种**间接的沟通方式**，实际上会在个人主义的参与者中产生相反的效果，他们很可能把这种间接方式视为口角。

Conversely, the use of **open, direct, forthright communication**, common in low-context cultures, can be perceived as rude and inconsiderate by collectivistic participants, who will likely consider the interaction as face threatening.

相反，在低语境文化中常见的**开放、直接、直率的交流**，会被集体主义的参与者认为是粗鲁和不体贴的，他们可能会认为互动是对面子的威胁。

第五单元:

(Cultural) Identity (文化身份、文化认同), p168

Fong defines cultural identity as the identification of communications of a shared system of symbolic verbal and nonverbal behavior that are meaningful to group members who have a sense of belonging and who share traditions, heritage, language, and similar norms of appropriate behavior. Cultural identity is a social construction.

冯 Fong 将文化认同定义为对一种共有的象征性言语和非言语行为系统的交流的认同, 这种象征性言语和非言语行为系统对具有归属感的群体成员来说是有意义的, 他们共享传统、遗产、语言和类似的适当行为规范。文化认同是一种社会建构。

Ting-Toomey and Chung's definition: **Cultural identity is the emotional significance that we attach to our sense of belonging or affiliation with the larger culture.**

丁图美和郑的定义是:“文化认同是我们对更大的文化的归属感或从属感所赋予的情感意义。”

Klyukanov sees cultural identity as membership in a group in which all people share the same symbolic meanings.

克柳卡诺夫认为文化认同是所有人都具有相同象征意义的群体中的成员身份。

Dervin defines cultural identity as what we construct whenever we are in contact with other human beings regardless of the fact that they are from the same environment or not.

德尔文将文化认同定义为我们在与他人接触时所构建的东西, 无论他们是否来自相同的环境。

This series of definitions is trying to demonstrate that due to identity's complexity and abstractness, it is difficult to construct a single, concise definition of identity that will be agreed on by everyone across the various academic disciplines.

这一系列的定义试图证明, 由于身份的复杂性和抽象性, 很难建立一个单一的、简明的定义, 以使不同学科的每个人都同意。

第六单元:

Language (语言), P197

Language may be thought of as an organized system of symbols, both verbal and nonverbal, used in a common and uniform way by persons who are able to manipulate these symbols to express their thoughts and feelings. While countless (无数) other animals use a form of language, it is the human brain and body that are best adapted for this complex symbol system.

语言可以被认为是一个有组织的符号系统, 既有口头的, 也有非口头的, 人们以一种共同而统一的方式使用这些符号来表达他们的思想和感情。当无数其他动物使用某种形式的语言时, 人类的大脑和身体最适合这种复杂的符号系统。

This chapter we mainly focus on verbal language.

这一章我们主要关注口头语言。

第七单元:

Nonverbal communication (非言语交际), p229

Nonverbal communication involves all those **nonverbal stimuli** in a communication setting that

(P-Time), which represents two approaches to perceiving and utilizing time.

霍尔为研究文化与时间之间的联系建立了一个经典的分类学。

他提出,文化以两种方式组织时间, **monochronic (M-Time) or polychronic (P-Time)**一种是**单向计时制(M-Time)**,另一种是**多向时间制(P-Time)**,这代表了感知和利用时间的两种方法。

In reference to Hall's classifications, we should add that although M-time and P-time are presented as two distinct categories, **it is much more realistic to perceive the two classifications as points along a continuum**. There are many cultures that do not fall precisely into one of the two categories but instead contain degrees of both M-time and P-time.

关于霍尔的分类,我们应该补充的是,尽管 M-Time 和 P-Time 被认为是两个不同的类别,但**把这两个类别看作是一个连续体上的点更现实**。有许多文化并不完全属于这两类中的一种,而是同时包含了 M-time 和 P-Time 的程度。

M-time

A monochronic view of time believes time is a scarce resource which must be rationed and controlled through the use of schedules and appointments, and through aiming to do only one thing at any one time. Cultures with this orientation perceive time as being **tangible**. When speaking of the M-Time orientation Hall states, People talk about time as though it were money, as something that can be spent, saved, wasted, and lost. **Acting out this view of time, a person would value punctuality, product over process, and the judicious use of time.**

单一时间观认为时间是一种稀缺的资源,必须通过使用时间表和预约来分配和控制,通过在任何时间只做一件事来实现目标。这种导向的文化认为时间是**有形的 tangible**。当谈到 M-Time 方向时,霍尔说:“人们谈论时间就好像它是金钱一样,是可以花、可以省、可以浪费、可以失去的东西。**表现出这种时间观,一个人就会重视守时,重视过程,重视产品,重视时间的合理利用**”

Cultures that can be classified as M-time include Germany, Austria, Sweden, Norway, England, Finland, Canada, Switzerland, and the dominant U.S. culture. **In the business or educational setting**, M-Time culture people would schedule appointments in advance, try to be on time to meetings, be concise in making presentations, and have a strong penchant for following initial plans. When those plans are not adhered to, they are apt to become frustrated.

可以归类为 M-time 的文化包括德国、奥地利、瑞典、挪威、英国、芬兰、加拿大、瑞士和占主导地位的美国文化。**在商业或教育环境中**, M-Time 文化人士会提前安排约会,尽量准时参加会议,简洁地做演讲,并强烈倾向于遵循最初的计划。如果不遵守这些计划,他们很容易受挫。

P-Time

The pace for P-time cultures (Arab, African, Indian, Latin American, South Asian, and Southeast Asian) is more leisurely than the one found in M-time cultures. In P-time cultures, human relationships, not tasks, are important. A polychronic view of time sees the maintenance of harmonious relationships as the important agenda, so that use of time needs to be flexible in order that we do right by the various people to whom we have obligations.

P-time 文化(阿拉伯、非洲、印度、拉丁美洲、南亚和东南亚)的节奏比 M-time 文化的节奏更悠闲。在 P-time 文化中,重要的是人际关系,而不是任务。多元时间观将维持和谐的关系视为重要的议程,因此时间的使用需要灵活,以便我们对有义务的各种人做正确的事情。

These cultures are normally collective and deal with life holistically. For P-time cultures, time is **less tangible**, and people are usually not in a hurry to finish an assignment or chore. In addition, P-time participants can interact with more than one person or do more than one thing at a time. Because P-time has this characteristic of engaging in several activities at once, people of these cultures often find it easier to employ **“multitasking”**. As Dresser

notes, this trait explains why there is more interrupting in conversations carried on by people from Arabic, Asian, and Latin American cultures.

这些文化通常是集体的，从整体上看待生活。在“时间文化”中，时间是**无形的**，人们通常不会急于完成任务或家务。此外，P-time 参与者可以与多个人互动或同时做多个事情。因为 P-time 具有同时从事多项活动的特点，这些文化背景的人往往更容易同时处理**多项任务**。正如 Dresser 所指出的，这一特征解释了为什么来自阿拉伯、亚洲和拉丁美洲文化的人在交谈中更容易打断别人。

M-Time and P-Time

Hall offers another instance of how the setting can determine which orientation a person utilizes: **The Japanese time system combines both M-time and P-time.** In their dealings with foreigners and their use of technology, they are monochronic; in every other way, especially in interpersonal relationships, they are polychronic.

霍尔提供了另一个关于环境如何决定一个人使用哪个方向的例子：

日本的时间系统结合了 M-time 和 P-time。

在与外国人打交道和使用技术方面，他们是 monochronic 单一时间的；

在其他方面，尤其是在人际关系方面，他们是多元慢性 polychronic 多向时间制的。

第八单元：

culture shock （文化冲击）， p279,

we consider culture shock as the initial mental and physical stress experienced, to varying degree, when an individual enters a culture different from his and her own.

我们认为文化冲击是当一个人进入与他和她自己不同的文化时所经历的不同程度的最初的心理和生理压力。

Acculturation （文化适应）， p279

acculturation ---learning to become functional and comfortable in their new cultural setting.

文化适应——学习适应新的文化环境。

Ethnocentrism （民族中心主义）， p281

ethnocentrism is the conviction that one's own culture is superior to other culture .

民族中心主义是认为自己的文化优于其他文化的信念。

Stereotyping （刻板印象）， p285

stereotyping is a natural ,often subconscious way of dealing with unknown situations.

刻板印象是处理未知情况的一种自然的，通常是潜意识的方式。

Prejudice （偏见） p287

in the context of intercultural communication ,prejudices are deeply held positive or negative feelings associated with a particular group.

在跨文化交际中，偏见是一种与某一特定群体相关的、根深蒂固的积极或消极的情感。

racism （种族主义）， p292

racism is but an extension of stereotyping and prejudice,as brought out in Leone's class definition:'Racism is the belief in the inherent superiority of a particular race.it denies the basic

quality of humankind and correlates ability with physical composition. Thus, it assumes that success or failure in any societal endeavor will depend upon genetic endowment rather than environment and access to opportunity.' Racist thinking is irrational because it is not only unethical and cruel but also founded on false premises.

种族主义是“成见”和“偏见”的延伸。“种族主义是相信特定种族的内在优越性。”它否定了人类的基本素质，并将能力与身体构成联系起来。因此，它假定任何社会努力的成功或失败都取决于遗传禀赋，而不是环境和机会。种族主义思维是非理性的，因为它不仅是不道德和卑劣的，而且建立在错误的前提上。

Power (权利), p294

More broadly viewed, power is the ability to cause things to happen, to control what happens, and to prevent things you do not want to happen.

从更广泛的角度来看，权力是导致事情发生的能力，是控制事情发生的能力，是阻止你不希望发生的事情发生的能力。

ethics in communication (沟通的伦理层面) p296,

Most cultures recognize the ethical dimension of communication on both a legal and an interpersonal level.

In the United States, for instance, the legal aspects of communication are manifested in laws governing libel, slander, truth in advertising, and political campaign practices.

大多数文化都从法律和人际层面认识到沟通的伦理层面。

例如，在美国，传播的法律方面体现在管理诽谤、诽谤、广告中的真相和政治竞选实践的法律方面。

cultural relativism (文化相对主义) p297,

Cultural relativism is predicated on the belief that ethical systems can vary among cultures, all systems are equally valid, and there is no single system that is better than the others.

文化相对主义基于这样一种信念，即道德体系可以因文化而异，所有的体系都是同等有效的，没有一种体系比其他体系更好。

Universalism (普遍主义) p298

Cultural universalism takes a position diametrically opposed to that of relativism.

文化普遍主义与相对主义的立场是截然相反的。

The problems with the universalism approach seem rather obvious and, like relativism, underscore the difficulty of deciding on a standard of ethics applicable to all cultures in every situation.

普遍主义方法的问题似乎相当明显，就像相对主义一样，强调了在每种情况下确定适用于所有文化的伦理标准的难度。

“总有文化普适”
